

Pathology Centralized Resources

PI and Lab Manager Tools

Path BioResource provides PI and Lab Manager tools to review monthly services that are provided by PCR staff, review service types and current rates, and locate instrumentation. PIs and Lab Managers can also access billing data as far back as 2012.

These tools can be accessed from the lab's page in the PBR web application. The lab page can be accessed using either the **PI-Principal Investigator** or **Lab Manager** links on the left navigation (see **Figure 1**).

Path BioResource was created by the Department of Pathology and Laboratory Medicine to provide administrative support to the departmentally-based shared resource laboratories. Through partnering with the School of Medicine administration, as well as Centers and Institutes within the University community, Path BioResource seeks to provide all investigators access to high quality, cost-effective advanced technology services as well as the scientific expertise to use these technologies effectively in their research efforts.

Researchers are urged to credit individual resource labs utilized by name in publications and grant applications.

Please read our [guide to requesting services](#) first before calling:

Path BioResource Help Desk 215-573-2958 or 215-573-0735
or email us at PBRHELPDESK@penmedicine.upenn.edu

Executive Director Jonni S. Moore, Ph.D.
Associate Director, Administration and Operations Luellen Fletcher
Financial Analyst Tracey Betzale

Senior Software Engineer Christopher Samowski
Application Developer Kyle Schuessler
IT Support Specialist Jacquelyn Thomas

Resource Laboratories

Pathology

- CRISPR/Cas9 Mouse Targeting Core
- Human Immunology Core (HIC)
- Pathology Centralized Resource (PCR)
- Pathology Clinical Services Center (PCSC)
- Penn Cytomics and Cell Sorting Resource Laboratory
- Tumor Tissue and Biospecimen Bank (TTAB)

Radiology

- Center for Advanced Magnetic Resonance Imaging and Spectroscopy (CAMRIS)

Figure 1

Once on the lab page, the user hovers over the blue ribbon that reads **Additional Management Tools** and clicks **Pathology Centralized Resources** to access the PCR service tools (see **Figure 2**). Note: this link only appears when PIs are using Path Centralized Resources for their research lab needs. Per departmental policy, research PIs in P&LM JMB and SCL space should contact PCR first for basic services.

From the PCR service tools page, the **Show Current Prices** (see **Figure 3**) button lists PCR services with up-to-date pricing and charge type. This tool also includes the link, **View Equipment Locations** (see **Figure 4**), which lists available shared instrumentation and locations. Shared instrumentation in JMB and SCL is available to all PCR users.
